

## **Western Terminus Project(s) Advertising for Construction**

Notice is hereby given that sealed bids will be received by the Livermore–Amador Valley Water Management Agency (LAVWMA) located in the offices of the Dublin San Ramon Services District at 7051 Dublin Boulevard, Dublin, California, 94568, at any time prior to **2:00 p.m. July 21, 2010** for furnishing all labor, materials, equipment, and services for the construction of improvements designated as the Western Terminus Project. The project is located in the San Leandro Marsh, San Leandro, California. Two bid proposals are being sought, each with a mandatory pre–bid meeting at the same address:

- **2010–01 Western Terminus Project – Pipeline Installation**      **1:00 p.m. July 8, 2010**
- **2010–02 Western Terminus Project – Restoration**      **3:00 p.m. July 8, 2010**

The Pipeline Installation Project (2010–01) consists of the installation of 42–inch HDPE and 36–inch welded steel pipe constructed by means of horizontal directional drilling, and open cut, respectively, pipe appurtenances and structures, limited access work areas, and extensive marsh protections and site restorations.

The Restoration Project (2010–02) consists of planting, irrigation, erosion control and maintenance for restoration of wetland, transitional and upland environments associated with the pipeline installation and permit compliance in City and State lands.

LAVWMA has posted the contract documents on eBidboard and they are available at the following url:
